Item of the Day: Femmes Sans Peur

There's color-blocking and then there's color-blocking that will get you noticed and stop you on the street. These dramatic Aurora pumps by Femmes Sans Peur fall into the latter category.

Aside from the striking "web"-type silver wedge that gives a bit of support to the gold stiletto, we're equally drawn to the winged dragonfly on the heel.

It's all inspired by the company's love for Art Nouveau and ancient Egyptian jewelry, and these are definitely worthy of Queen Nefertiti.

Green and blue too colorful for you? Try the black and gold ones with python

wedge. Equally stunning. Retail: \$595.
